

ARCH 614. Project Evaluation Part II

Group Name: _____

Project Grade: _____

	Criteria met	Percentage Range
Completeness		
Description		
Drawings As built Revised		
Design Data Material properties Section properties		
Analysis		
Evaluation		
Complete process (redesign)		
Readability		
Research and citation		
Modeling		
Accurate dimensions or assumptions		
Material identification		
Load quantification		
Load tracing for all cases		
Quantified internal forces		
Displacement analysis		
Evaluation		
Structural strength / Efficiency		
Serviceability		
Design (decision making)		
Depth		
Conclusions or summary		
Comments on Quality:		
Comments on Deficiencies:
